See Continuation Sheet

Part III.

- ☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.
☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.

(Examiner/SPE Signature)

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner requested clarification on the Independent claims. Mr. Glembocki indicated that the cited prior art fail to teach a first base station communicating data directly to a second base station, wherein the overall system is autonomous and that the prior art cited does not show vertical communication, where first base station communicates data directly to second base station. Although Applicants clarification of the claims included language that is not included in the claimed invention, Examiner has performed an additional search..
